Footpath along old RR alignment; several "rough patches"

End of road.

Lovely clearing overlooking river; trail continues around knoll to confluence.

Tunnel

Cross river heading upstream. Look for steep path up slope with rope to assist ascent. Look for RR tracks and tunnel entrance.

Dirt road along North-facing slope.

Road partially obstructed by diagonal drainage channels. Maneuver carefully to avoid "bottoming out".

Facing West, drive down right hand option. Road winds moderately downhill.

Start here, at Camp Nine.
